SKILLS

- **Languages:** JavaScript, TypeScript, Python, Go
- Frontend:** React, Next.js, Angular, TailwindCSS, Zustand, Ionic
- Backend:** Node.js, Express, Hono.js, Django REST Framework
- Databases:** PostgreSQL, MongoDB, Redis, Prisma, Supabase
- Cloud & DevOps:** AWS, GCP, OCI, Cloudflare Workers, Docker, Kubernetes, GitHub Actions, RabbitMQ, ZeroMQ
- Systems & Linux:** GTK4, Libadwaita, Python (desktop apps), AUR / Linux packaging

EXPERIENCE

- **Scalexperts** Remote
Software Developer Sept 2025 – Present
 - **Client Websites:** Sole architect on 3 production client websites in Next.js, owning system design, API layer, and deployment end to end; each shipped with 95+ Lighthouse scores. Authored 70%+ of all commits per project.
 - **Lead Pipeline:** Designed and implemented a serverless, event-driven lead-processing pipeline (Google Apps Script, Sheets, Brevo) — defining API contracts, failure handling, retry logic, and notification workflows.
 - **CMS Migration:** Migrated the blog platform from Hashnode to Sanity CMS with zero downtime. Redesigned schemas, moved data fetching to GROQ queries, and upgraded rendering to PortableText, cutting publish turnaround from hours to minutes.
 - **CI/CD:** Introduced GitHub Actions CI/CD across all client repositories, enforcing Prettier, ESLint, and build checks on every pull request, virtually eliminating broken-build incidents.
 - **Mentorship:** Mentored a junior developer through a full client delivery, from onboarding to production handoff.*Best Performer, March 2026 | Stack: Next.js, TypeScript, Sanity, Brevo, Apps Script, Vercel, GitHub Actions*
- **Scalexperts** Remote
Software Developer Intern Apr 2025 – Sept 2025
 - **Blog Platform:** Built the company blog platform from scratch with Next.js and the Hashnode GraphQL API, designing the full data layer, all UI components, and a dynamic XML sitemap generator; shipped at 98+ Performance, 100 Accessibility/Best Practices/SEO, and a perfect agentic-browsing score (2/2).
 - **Cache Fix:** Redesigned the cache-invalidation strategy via webhook-triggered ISR revalidation, eliminating stale content and cutting content-fetch latency from ~400–500ms to 50–100ms.
 - **Technical SEO:** Implemented the technical SEO stack across all client pages: canonical tags, 301 redirects, robots.txt, XML sitemaps, Google Search Console, and Google Tag Manager, lifting organic search impressions ~30% within the first quarter.
 - **Security & Tooling:** Patched a critical React security vulnerability in production. Refactored the multi-repo codebase (6 repositories) in a single sprint, introducing Prettier, ESLint flat config, and lint-staged.*Best Performer, June 2025 | Stack: Next.js, TypeScript, Hashnode GraphQL, Apps Script, Brevo, GTM, Vercel*
- **Independent** Remote, Part-time
Freelance Full-Stack Developer Jul 2025 – Present
 - **SaaS Applications:** Built and shipped 4 production SaaS applications (auth, billing, dashboards) for independent clients, achieving sub-90ms global API latency via Cloudflare Workers and Vercel Edge Functions.

PROJECTS

- **Codr CLI — AI Developer Assistant (GitHub / NPM):** Terminal-native AI coding agent (TypeScript, Python, ZeroMQ, RAG) that writes, refactors, and explains code, queries local documents and codebases, and generates full-stack projects from a single prompt.
- **Airctl — WiFi Manager for Linux (GitHub, 100+ stars / AUR):** GTK4 and Python WiFi manager for Linux with GUI and CLI interfaces to scan, connect, and manage wireless networks; packaged for Arch Linux via AUR and featured on LinuxLinks and r/hyprland.
- **OmniGlyph — Emoji & Unicode Picker (GitHub, 80+ stars / AUR / Site):** GTK4 and Libadwaita symbol picker for Linux for instant search and clipboard-copy of emoji, Unicode, and Nerd Font glyphs across a keyboard-driven overlay.
- **Phosphor-cam — Real-Time ASCII Camera (GitHub, 90+ stars / Live):** Real-time webcam-to-ASCII renderer built with React, TypeScript, and the Canvas API, sustaining 60+ FPS with 4K image export.

CERTIFICATIONS

- Oracle AI Vector Search Certified Professional | Oracle Database@AWS Certified Architect Professional | OCI Generative AI Professional | OCI AI Foundations Associate

EDUCATION

- **Bengal Institute of Technology** 2022 – 2026
3-Year Diploma in Engineering, Computer Science and Technology
